EDUCATION

BS in Computer Science, Southern New Hampshire University
GPA: 3.8

Coding Bootcamp, Treehouse Fullstack Javascript Techdegree
Certificate

Harvard Course, CS50 Introduction to Computer Science
Certificate

SKILLS

Languages	Javascript, Python, HTML, CSS, C, C++, Java, SQL
Frameworks	React, Node.js, Express
Tools	Git, Postman, AWS, TravisCI
Soft Skills	Leadership, Communication, Adaptability, Customer service, Teamwork

PROJECTS

Course Database Site Javascript, CSS, HTML, React, React Router, Sqlite, Sequelize, Express, Pug   GitHub

- Created and integrated an API for CRUD operations within for a school course database website.
- Developed the site's front end using React.
- Implemented a login system and allowed user database manipulation.
- Anybody can view courses on the database, and logged-in users can edit the courses that they have personally added

Library Manager Sqlite, Sequelize, Express, Pug, Javascript, CSS, HTML   GitHub

- Implements a SQL database and allows the user to use CRUD operations on that database, which is a list of books
- The interface allows users to configure the databse by deleting books, adding new books, or editing any of properties in existing books.

Image Gallery React, React Router, Flickr API, Nodejs, Javascript, CSS, HTML   GitHub

- React site integrated with Flickr API to display images depending on their tags
- Three example tags are kept by the search bar, but users can also search for anything else

In-browser Javascript Game JavaScript, CSS, HTML   GitHub

- A hangman-style browser game made using JavaScript
- Letters are suggested through the in-browser keyboard.

WORK HISTORY

Assistant Manager Hungry Howie's   2020 - 2021
